

## Galvanised insulated commercial shutter

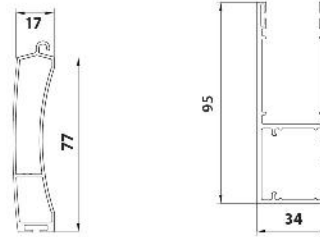

Our Insulated Commercial Shutter combines all the qualities of our robust SeceuroDoor 75 but with the added benefit of insulation.

### Thermal and Acoustic Insulation

Minimal thermal bridges and the use of fine-pored PU rigid foam infill ensure good thermal insulation whilst curtain and sealing technology used around the entire shutter reduce noise from both inside and outside.

- Heat transmission performance for the 77 mm single slat profile 4.01 W/(m<sup>2</sup> K)
  - Max width 6000 mm
  - Max height 3400 mm
  - Max area 20 m<sup>2</sup>
  - Can be powder coated any colour
  - Standard guide angle is 75 mm x 50 mm
- Other sizes are available on request

SLAT, BOTTOM SLAT AND GUIDE

SLAT (INSULATED)
